Mr. Robert C. Duprey, Director
Waste Management Division
U.S. Environmental Protection Agency, Region VIII
999 18th Street, Suite 500, 8WM-C
Denver, Colorado 80202-2405

Gentlemen:

This letter is a follow up to our April 13, 1990, letter to you concerning delivery of a detailed schedule for surface water Interim Measure/Interim Remedial Action (IM/IRA) for Operable Unit No 2 (OU2). In our April 13, 1990, letter, we committed that we will take all actions necessary to achieve a December 30, 1990, start-up and commit to deliver a detailed schedule (which will include the delivery of an IM/IRA to both agencies) by May 4, 1990. However, we are requesting an extension of the May 4, 1990, date to May 14, 1990.

We are requesting an extension due to a recently implemented policy with EG&G Rocky Flats requiring 10 working days for the Department of Energy Rocky Flats Office (DOE-RFO) staff and management review and finalization for Environmental Restoration (ER) documents being submitted to the regulatory agencies. With this 10 working day DOE review time, we would not be ready to submit the detailed schedule to you until May 14, 1990. We feel that in the best interest of all parties, additional review time is required prior to submission of the detailed schedule.

As stated in our April 13, 1990, letter, we will take all actions necessary to achieve the December 30, 1990, start-up date.

Should you have any questions, please contact me or Scott Grace of my staff at 966-7199.

Sincerely,

Jack R. Roeder, Acting Assistant Manager
Environmental Management
